

The Fast, Easy, Operator-Controlled Automated Material Conversion Solution

At the touch of a foot switch...

Accu-Cut™ automated converting systems automatically dispense sheets of Sealed Air® flexible wrap materials, cut to any desired length from 6" to 300", in widths up to 50" (Accu-Cut™ 480) or 78" (Accu-Cut™ 760).

Versatile

Converts single or multiple rolls of Bubble Wrap® brand air cellular cushioning or Cell-Aire® foam products into custom cut sheets. Changes easily from one material to another without adjustments.

Easy To Use

A user-friendly keypad allows operators to choose the size needed for their applications. Accu-Cut™ converting systems are simple to install, and run on standard 110 V electricity and minimum 80 psi shop air (low usage), with minimal maintenance.

Saves Labor and Material

Quickly dispenses the pre-selected sheet length for increased throughput, while reducing labor and eliminating waste.

Specifications		
	Model 480	Model 760
Max. Material Width:	50"	78"
Size (W x L x H):	70" x 54" x 50"	102" x 54" x 50"
Weight:	280 lbs	330 lbs
Power:	110 VAC, 5 Amp	110 VAC, 5 Amp
Max. Production Rate:		
20 inch length	15 sheets/min.	15 sheets/min.
10 inch length	20 sheets/min.	20 sheets/min.
